

# Chemplex XRF näyttekupit

## SpectroCertified® XRF Sample Cup Quality Starts with a Special Formulated Polyethylene

Chemplex XRF näyttekupit: Tuotenro: 1330 SE  
(RoHS Compliant). Mitat 30.7 mm x 22.9 mm  
(ulkohalkaisija x korkeus).

Chemplex® XRF Sample Cups are injection  
molded from a proprietary high-density  
polyethylene specially formulated for this  
application. The material is characterized with:

- Compliance with RoHS Directive
- Absence of “whitening” agents that may potentially influence x-ray data
- Lubricity to facilitate the smooth and firm attachment of thin-film sample support windows
- Physical characteristics for performance and resistance to thermal and irradiation exposure
- Chemical resistance from contact with incalculable sample material substances
- Low trace element impurities

Toimitus min. 100 kpl:een pusseissa.

Näyttekuppeihin mukaan:  
Thin-Film (eli kalvot). Tuotenro 426 (RoHS  
Compliant). Valmistusmateriaali proleeni.

Kalvot soveltuvat erinomaisesti myös keveiden  
alkuaineiden analysointiin.

Toimitus min. 500 kpl:een laatikoissa.
